								<i>Sum:</i>		<b>450</b>	<b>30</b>	<b>30</b>
										-	-	-
*The condition of passing a given module is obtaining positive marks in the subjects within this module. A fail in any class results in failing the whole module. The final mark is the arithmetical mean of the marks obtained in all classes belonging to the module.												
**The condition of taking the examination is obtaining a positive mark in the practical class. A fail in the practical class or the examination results in failing the whole module. The final mark in the module is a mean value calculated in the following proportions: 30% (practical class) and 70% (examination).
