NEW IDEAS, CONCEPTS AND THEORIES IN LINGUISTICS

The conference is the fourth edition of the “Linguistische Juniorentreffen in Wrocław“ cycle of meetings which is going to serve as a discussion platform for young researchers. We sincerely invite all young scholars – students and doctoral candidates. Our conference provides an opportunity to exchange knowledge and engage in scientific discourse. This time we are going to concentrate on the following issues:

- new theoretical considerations and assumptions,
- new methods, ways of approach and research perspectives,
- new research areas and unsolved problems within the field of linguistics,
- interdisciplinary approach to the phenomena presented,
- contrastive, confrontative and comparative research: German and other languages,
